

WHAT! I can't believe that you are trying to reverse the Do Not Call Law in NJ. This is one of the strongest laws in the country that was supported and approved by the PEOPLE of NJ. At last I have peace and quiet from unwanted telephone calls. My phone, WHICH I PAY FOR, is for MY PERSONAL USE!!!! Not for business to interrupt my peace and quiet so they can sell me something I don't want. If anything the law should be expanded to include politicians and tax free organizations. At least every politician or organization should be required to leave a return telephone number as part of their recorded message.
